EMMANUEL MARQUEZ

Front-End & Web Developer · HTML, CSS, JavaScript · WordPress & HubSpot · HTML Email

Saratoga Springs, UT · Open to remote

(813) 323-4016 | emmanuelg.marquez@gmail.com | Portfolio: emmanuelgmarquez.com

SUMMARY

Front-end developer with 6+ years turning designs into clean, responsive HTML and CSS, from WordPress sites built with custom PHP templates and Advanced Custom Fields to enterprise HTML email for Bank of America, including work recognized with Gold, Silver and Bronze awards. Works directly from Figma, writes code that holds up across browsers, email clients, mobile and dark mode, and QA's every change before it goes live. Comfortable in HubSpot, Salesforce Marketing Cloud, Git and REST APIs.

SKILLS

Front end: Semantic HTML, CSS (responsive layouts, media queries), JavaScript, jQuery, accessibility, cross-browser and cross-device testing

CMS: WordPress (custom PHP templates with Advanced Custom Fields, themes, plugins), HubSpot (emails, workflows, lists and segments)

Email development: Responsive HTML email, modular template systems, Outlook optimization, dark mode, AMPscript, dynamic content

Tools: Git, REST APIs, Figma, Photoshop, Illustrator, Litmus, Email on Acid

Platforms: Salesforce Marketing Cloud, HubSpot, Klaviyo, Braze, Mailchimp, Constant Contact, Oracle Responsys, Acoustic, Cordial

Working style: Design-to-code handoff, pre-release QA, technical documentation, stakeholder communication

EXPERIENCE

Email Developer
Dec 2023 – Present

Tamman Inc. | Client: Bank of America

- Build production-ready, responsive and accessible HTML/CSS emails for Bank of America within a multi-stage review and QA process.
- Contributed to Bank of America email work recognized with Gold, Silver and Bronze awards (credited to BofA's ECS team).
- Engineer consistent rendering across Outlook, Gmail, Apple Mail, dark mode and mobile; implement personalization and dynamic content.
- Own pre-release QA of links, layout, rendering, personalization and production readiness, fixing issues before deployment.
- Deliver accurate builds across concurrent initiatives on tight deadlines with marketing, creative, QA, PM and technical teams.

Salesforce Marketing Engineer
Oct 2022 – Nov 2023

Next Level Solutions | Client: THREE Insurance

- Translated THREE Insurance requirements into working Salesforce Marketing Cloud lifecycle and automated programs.
- Built campaign components with Journey Builder, Data Extensions, SQL audience queries, segmentation and dynamic content.
- Diagnosed data, automation, journey and email-configuration issues, tracing root causes through to resolution.
- Ran pre-deployment QA on data, personalization and content; maintained documentation and production standards.

Lead Email Developer
Oct 2020 – Oct 2022

Snow Companies | Pharmaceutical brand campaigns

- Led email development for pharmaceutical brand campaigns using responsive HTML/CSS and Salesforce-based workflows.
- Built a reusable, modular template system for personalization, accessibility and consistent cross-client rendering.
- Owned builds from approved creative through coding, Litmus QA, revisions and handoff, reducing turnaround time.
- Validated Salesforce test records and merge fields in sandbox before release; documented team development standards.

Front-End Developer
Jan 2020 – Oct 2020

Socius Marketing | WordPress websites

- Built and maintained responsive production WordPress websites using HTML, CSS, JavaScript and PHP.
- Developed custom page templates in PHP using Advanced Custom Fields (ACF).
- Managed theme and plugin updates on live sites and validated every change in production.
- Troubleshot and QA'd front-end issues across responsive layouts, forms and browsers.
